

News Brief

Vertex Hosts Exchange Europe on 15 September in London

The second annual Vertex Exchange Europe 2009 conference will take place on Tuesday, 15 September, at the May Fair Hotel in London. Following the success of Exchange Europe 2008, this year's event will continue to explore the issues affecting efficient global tax management, current technology trends, and actionable strategies for the improved management of indirect (transaction) taxes.

Attendees at Exchange Europe 2009 will include clients, prospects, and partners, as well as Vertex personnel from both Europe and the U.S.

Carmel Moore, Director – European Tax Centre at Pfizer, will present this year's keynote address along with Jeff Westphal, and kick off an exciting day of learning and discussion.

"Exchange Europe 2009 is back for another successful event. We hope to continue to foster relationships with European clients and prospects and build on our mission to become a leading global tax provider through applied innovation and improved tax management solutions," said Jeff Westphal.

The breakout sessions include topics such as:

- Introduction to Value Added Tax Automation
- Future of Global Tax Management and Tax Technology
- Value Added Tax in 2010 and Beyond
- Tax Reporting, Analysis, and Business Intelligence
- Case studies outlining the benefits of tax automation
